

# NZ Lifestyle Camping Ltd. Self-contained Vehicle Inspection Sheet

This form is for a record of inspection in accordance with the Plumbers, Gasfitters and Drainlayers Act 2006

V5 Master- valid from April 2026 **\*Red text indicates a required field** \*Please indicate if requirements met with

Motor Vehicle Plate No:		Make and Model:		Year:	
<b>Fresh water supply and loading mechanism</b>			Fresh water tanks are sealed 3(a) <input type="checkbox"/>		
Number of freshwater tanks (2a)			Fresh water tanks are securely mounted 3(b) <input type="checkbox"/>		
Total capacity of freshwater tanks (2b) <span style="float:right">litres</span>			Made from UV resistant material or not exposed to sunlight 3(c) <input type="checkbox"/>		
Material type of freshwater tanks (2c)			Water tanks are suitably vented for air displacement 3(e) <input type="checkbox"/>		
How are the Tank/s Secured (2d)			Located away from heat sources or adequately insulated 3(d) <input type="checkbox"/>		
Inlet diameter (onloading) (2e) <span style="float:right">mm</span>			Protected from contamination (3g) from external sources (incl. vent) <input type="checkbox"/>		
Inlet seal type (2f) e.g cap			Components for the fresh water system are made of suitable and non contaminant opaque material. 3(i, j) <input type="checkbox"/>		
Fresh water tanks are - permanent <input type="checkbox"/> or portable <input type="checkbox"/>			The fresh water system is designed and installed in a sound and appropriate manner, with no leaks or known contamination risks 3(f,h,l,k) <input type="checkbox"/>		
<b>Vehicle Toilet</b>			The vehicle's fresh water system is adequate, functional and fit for purpose for the period of certification. 3(m) <input type="checkbox"/>		
Toilet type 4(a) <input type="checkbox"/> Cassette <input type="checkbox"/> <input type="checkbox"/> Waterless <input type="checkbox"/> <input type="checkbox"/> Plumbed <input type="checkbox"/>			Additional Information on Freshwater system 2 (g)		
Toilet make and model 4(b)			Toilet is permanently fixed and useable inside vehicle 5(a,b) <input type="checkbox"/>		
Waste Capacity 4(c) <span style="float:right">litres</span>			Toilet is made from suitable materials 5(f) <input type="checkbox"/>		
Toilet Material 4 (d)			Base rigidly mounted, Not removed to empty 5 (c,d) <input type="checkbox"/>		
If Fixed black water tank, a suitable dia. (e.g. 75mm) valve and hose (incl. length) to empty 7(d) <input type="checkbox"/>			Toilet appropriately installed and fit for purpose 5(g,h) <input type="checkbox"/>		
How is the toilet Permanently fixed? <input type="checkbox"/> screwed/ bolted <input type="checkbox"/> <input type="checkbox"/> with bracket <input type="checkbox"/>			Drains or flushes into suitably designed, fitted and vented blackwater tank or cassette or removable chamber 5(e), 7(d) <input type="checkbox"/>		
<b>Waste water containment and evacuation</b>			There are sufficient facilities for disposal of waste from waterless toilet (if applicable). 7(k) <input type="checkbox"/>		
Number of wastewater tanks 6(a)			Additional information on the toilet and waste storage from waterless toilets 4(f, g), 7(k)		
Total capacity of wastewater tanks 6(b) <span style="float:right">litres</span>			Note: Removable toilet cassettes are defined in the regulations as waste water tanks. NZLC considers that the main body or bowl of the toilet when permanently secured and supported is the base.		
Material of tanks (6c)			System components and fittings are of suitable size and design to safely Transfer waste water from sink, basin or shower to waste tanks. 7(c,f,g) <input type="checkbox"/>		
How are the Tank/s Secured (6g) (7b)			Waste evac. hose/ pipes are Made of suitable material 7 (i) <input type="checkbox"/>		
Dia. of onboard wastewater pipes 6(d) <span style="float:right">mm</span>			Waste water tanks are securely mounted 7(b) <input type="checkbox"/>		
Diameter of vent outlet 6(e) <span style="float:right">mm</span>			Waste tanks are sealed or capped incl. for emptying? 7(a) <input type="checkbox"/>		
Where is Ext location of w/water vent outlet 6(f)			Appropriate and hygenic storage for waste hoses 7(k) <input type="checkbox"/>		
Diameter of waste outlet or Isolating valve 6(h, j) <span style="float:right">mm</span>			Waste water system is fuctional installed to a high standard for the period of certification 7(l) <input type="checkbox"/>		
External Waste Hose Length 6(i) If applicable <span style="float:right">mm</span>			Additional Information on waste water system 6(l)		
Storage of waste hose 6(k,7 j)			<b>Sink and Rubbish and Ventilation System</b>		
Wastewater tanks are - permanent <input type="checkbox"/> or portable? <input type="checkbox"/>			Sink capacity 10(a) (estimate) <span style="float:right">litres</span>		
Overall comment:			Sink Waste Diameter 10(b) <span style="float:right">mm</span>		
			Sink Waste hose/pipe Length 10(c) <span style="float:right">mm</span>		
<input type="checkbox"/> As vehicle inspector I consider the vehicle's critical self-containment elements meet the requirements as prescribed in the Act and regulations for the period of certification being 4 years (48 months) from the date of issue.			Sink Water seal type (d) <span style="float:right">e.g. s bend, p trap, smell trap</span>		
			Rubbish Bin 10(f) <span style="float:right">litres</span>		
Testing Officer name: _____ Testing Officer signature: _____ Testing Officer ID _____			Items are designed and installed to a good standard and fit for purpose <input type="checkbox"/>		
Date: _____			Detail of ventilation system (open windows acceptable) and placement 8(a,b,c,d)		
			<b>This vehicle has been passed for _____ occupants.</b>

## Self-contained Vehicle Inspection Cover Sheet

- This cover sheet is in reference to motor vehicles inspected and tested to meet the requirements of the Plumbers Gasfitters and Drainlayers Board Self-contained Vehicle Regulations, 2023.
- This cover sheet is in reference to motor vehicles owned by the persons or organisation named below.
- Please indicate if the vehicle testing Officer has any interest in the vehicle(s) detailed in the associated test sheet(s)

No Interest, testing only

Interest as owner or operator.

Interest as work completed

Interest as employee of owner or operator.

**If this cover sheet is for more than 1 motor vehicle, please list all registration numbers.**

Vehicle for Certification Plate number (s)			
Name of vehicle owner:			
Business Name: <i>(if going to Business Address)</i>			
Address for Delivery  <i>(All CSC's will be couriered)</i>			Post Code :
Email:			
Phone:		Preferred Contact:	Phone <input type="checkbox"/> Email <input type="checkbox"/>
If test arranged by an agent or 3 <sup>rd</sup> party, Show name and contact details.			

### **Instructions for completion of NZ Lifestyle Camping self-contained vehicle inspection test sheet(s):**

- 1) The self-containment test sheet(s) should be used in conjunction with the Plumbers Gasfitters and Drainlayers Board Self-contained Vehicle Regulations, 2023 and the gazetted Plumbers, Gasfitters, and drainlayers Board (Motor Vehicle Inspections) Notice 2023.
- 2) Completion of the test sheet(s) **is not** the issue of a certificate of self-containment. Fines can still occur.
- 3) **The completed test sheet(s) are to be emailed to [csc@nzlifestylecamping.com](mailto:csc@nzlifestylecamping.com) or posted to;**  
**NZ Lifestyle Camping Ltd; 32 Kennedy Ave, Feilding, 4702.**
- 4) NZ Lifestyle Camping Ltd, as Self-containment certifying authority, will process the completed test sheet, and collect and pay the levy to the Plumbers, Gasfitters and Drainlayers Board as agent.
- 5) Any questions regarding completion of the test sheet or issue of documentation are to be directed to [csc@nzlifestylecamping.com](mailto:csc@nzlifestylecamping.com) or [admin@nzlifestylecamping.com](mailto:admin@nzlifestylecamping.com) or ph. 027 2469778 during normal business hours.
- 6) Any, and all complaints should be resolved through the testing officer in the first instance or contact NZ Lifestyle Camping Ltd if not resolved.
- 7) Vehicle owners may be given a copy of the completed test. The test sheet is not a certificate of self-containment. Once the owner is in possession of the Green Card and Certificate, they are then fully certified.

### **Payment:**

- Payment of the NZLC Processing and Levy issue fee total - **\$195** is to be made to NZ Lifestyle Camping.
- **BNZ bank account 02-0628-0084975-00** with **vehicle plate number** and or **owner name** as the reference.
- Cost Breakdown includes \$120.00 PGDB levy, \$75 processing, printing, packaging and courier fee.
- Invoices and statements will be issued on request or where payment is outstanding.
- A valid self-containment certificate cannot be issued until payment has been made.
- Fleet or bulk issue discounts and payment will be considered on a case-by-case basis.
